

SPT – SMALL PRECISION TOOLS

Recognized for Excellence by

Texas Instruments

SPT – SMALL PRECISION TOOLS, a pioneer and world leading supplier of semiconductor bonding tools, has received the Texas Instruments (TI) 2021 Supplier Excellence Award, the company's highest level of supplier recognition and awarded annually.

SPT has demonstrated dedication and commitment in supplying products and services that meet TI's high standards for excellence. The company is in an elite group of suppliers chosen for their exemplary performance in the areas of cost, environmental and social responsibility, technology, responsiveness, assurance of supply and quality.

"We are delighted and honoured to receive this prestigious accolade from TI for the fourth time. This award is a testament of the values we share with our customers, our commitment to the highest standards of product quality, service excellence and customer satisfaction.

We greatly value the close business partnership we have forged with TI for many years, and we look forward to more collaborations in the future.", said SPT's President & CEO, Andreas Tönnis

About SPT – Small Precision Tools

SPT – Small Precision Tools is a pioneer and world leader of semiconductor bonding tools, headquartered in Lyss, Switzerland. SPT produces in 5 major locations, strategically located around the globe, with worldwide sales and support centers to provide local support to customers. Building on its strong innovation and material research background, the SPT group has expanded into fine ceramics and micro precision technologies serving global semiconductor, automotive, industrial and medical industries.
